

GUIDE FOR BUYING POWR TOKENS

Visit <https://mainsale.powerledger.io/> and click 'Get some POWR'. Then you will be prompted to follow these simple steps:

STEP 1: AGREE TO THE TERMS AND CONDITIONS

- Read and agree to the entire Terms and Conditions, before you can participate in the TGE.

STEP 2: ENTER YOUR PUBLIC ETHEREUM AND EMAIL ADDRESS

- Provide an Ethereum Address using a wallet that is ERC20 compliant, to receive your ERC20 POWR tokens. This can be a different wallet than the one you send payment from.
- **DO NOT USE AN EXCHANGE WALLET**, such as Coinbase as you will not be able to receive your POWR tokens.
- You must have access to the private keys of your Ethereum Address.
- You must also provide an Email Address to be used to communicate important notices to you, such as to inform you of the next important steps in the TGE.
- When you're transferring the wallet addresses, use the cut and paste function to make sure you transcribe the addresses perfectly.

STEP 3: SELECT THE COIN YOU WANT TO BUY POWR WITH

- You will be given the following currency options for your preferred method of payment: Ethereum, Bitcoin or Litecoin

STEP 4: CONFIRMATION OF THE INFORMATION PROVIDED

- **It is your responsibility to check carefully and confirm that the information you provided is correct** for your Ethereum Address, Email Address and the Selected Coin for payment.
- This is very important as typo errors are remarkably common.
- If you have specified an incorrect address and this results in the loss of your POWR Tokens we will not issue any refunds.

STEP 5: SEND THE DESIRED AMOUNT TO THE PAYMENT ADDRESS

- You will receive a unique Payment Address displayed on screen. You need to send your desired amount to the payment address shown.
- Go to your wallet or exchange and send the desired amount to the unique address we generate for you.

- If you are sending funds from an exchange expect delays in the confirmation of the transaction.

AFTER BUYING TOKENS

EMAIL CONFIRMATION

If you do not receive an email, don't panic! We have made an online tool to allow you to self-check your tokens. If your tokens show here, your transaction is confirmed. The tool shows all information included in the email. Main Sale buyers can check here: <https://mainsale.powerledger.io/stats.php>
Pre-sale buyers can check here: <https://presale.powerledger.io/stats.php>

PURCHASING MORE TOKENS

If you desire to purchase more tokens you are able to, but **be sure to go through the website steps again**. If you send another transaction to your unique address you will not receive confirmation and will have to wait until we can add it to the system manually. In this scenario, the website tool will not show the second transaction.

RECEIVE YOUR TOKENS

Tokens will be distributed up to 4 weeks after the Main Sale ends. We will send you an email notification when they have been distributed. If you have any issues relating to your purchase, please email crowdsale@powerledger.io
